FURNACES. THE ATTENTION of the community generally, and of house-builders particularly, is invited to the Keystone Heater, lately patented by J. D. Green, of Philadelphia.

All persons interested are solicited to call at our store and satisfy themselves of the superiority of this heater over all others in use. So successfully have the principles of combustion been applied in its construction, that although it presents a radiating surface of one hundred and fifty square feet, it requires thirty per cent. less coal than any furnace heretelore manufactured. terrinco nervenore manufactured.

Every improvement that an experience of thirty years in the furnace business could suggest has been applied in the production of the Keystone Heater, and its proprietors feel assured that, for efficiency and economy of use, it is unsurpassed.

MASUFACTURING COMPANY'S IMPROVED SEWING MACHINES, Families, Manifacturers, and Others.

THESE machines combine all the improvements that have been invented. Their extended exist increasing sale, and the unanimous approval and commendation that their have received, warrant the proprietors in warmly recommending their? They have been in use sufficiently long to test them theroughly, and have given entire antisfaction.

Among the undoubted advantages that they possess over all others,

are:

1st. Beauty and simplicity of construction, and consequent freedom from derangement and need of repairs.

2d. Unexampled case and rapidity of operation.

3d. Noiseless movement.

4th. The remarkable perfection of their stitching, and their applicability to a variety of purposes and materials.

Principal office No. 345 Broadway, New York; and at their agencies in the principal cities of the Union.
